Café de Voyage has begun a new journey in 2020 with this brand new venture. Utilizing the best skills of the Camilson's Group in creating a fresh concept in hospitality. Planning, designing and building this project was all done in-house and Ceasar Fernandes and his team are glad to welcome you to Café De Voyage.

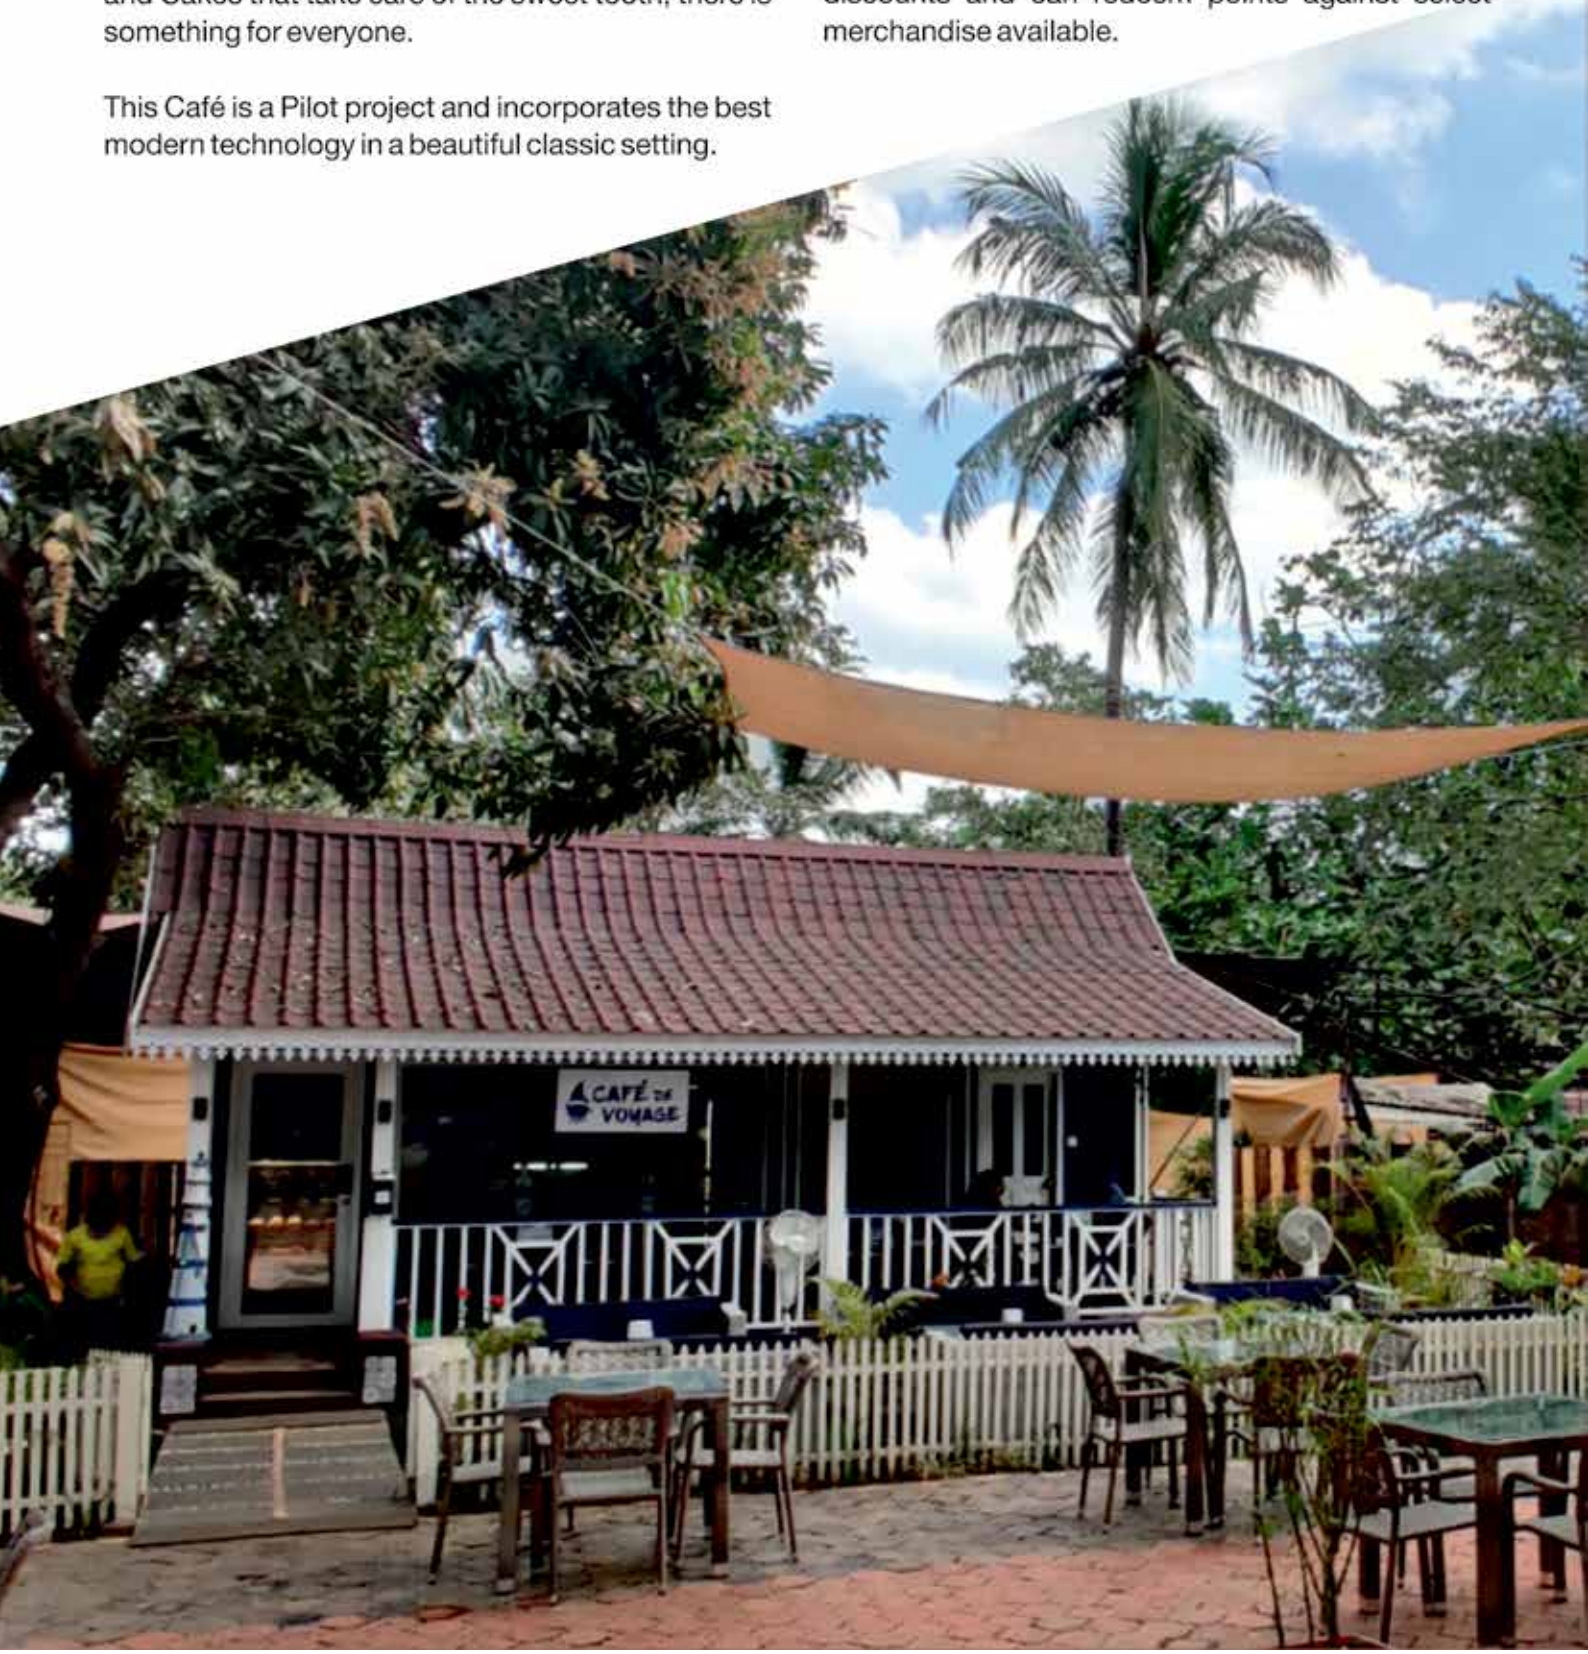

The café will be open all day and has an exciting Café - Diner Menu that is sure to fulfill the needs of all its visitors. From quick take away snacks to satisfying breakfast and meal specials to the Donuts and Cakes that take care of the sweet tooth, there is something for everyone.

This Café is a Pilot project and incorporates the best modern technology in a beautiful classic setting.

One of the highlights of the place is the freshly brewed coffee which is comparable to the best you will find in Goa. This accompanied by the delicious Donuts just has a way of hitting the right spot and leaving you feeling refreshed and recharged.

The Café also features live music with a pop-up live kitchen on weekends. The Chefs offer you a combo meal with specials and house favourites.

Café De Voyage also has a free membership scheme with loyalty (CDV) points. Members are entitled to discounts and can redeem points against select merchandise available.

BREAKING THE FAST

Most important meal of the day. Start well and the rest of the day will just fly by. You can select items from the main menu and add to this breakfast selection or go in for the Special Breakfast Combo. Either way a Café De Voyage breakfast is the best way to start your day.

Wooden Homes India is a company carved out by a family that has been crafting wood since the last five generations.

Building
Dreams

A FABLE RELIVED

ADMIN STAFF BUILD A COTTAGE IN 5 HOURS!

On a beautiful sunny January morning, the staff of Wooden Homes India headed to Camilsons Beach Resort at Colva, Goa to participate in a team building activity.

This was a DIY project of the wooden structure model named Rudy. The wood was arranged by the transportation team, stacked into separate bundles and marked alphanumerically.

Mr. Caesar Fernandes, the CEO of Wooden Homes India explained the set up procedure and guided the staff throughout the building process. The staff were divided into teams, each allocated one wall to build. The teams were then given a copy of the plan for the wall which were marked as per the wood to be used. They were helped by the Project Manager Roger who showed them how to follow the drawings and instructions in the plan.

The PROCESS : Each plank of wood is cut and designed to fit into each other without nails, known as the Tongue & Groove Technology. This interlocking method ensures the longitudinal stability of the cottage/structure that can brace wind upto Force 8 and prevents the wall or roof from twisting or falling off. The doors are placed first and the walls are built around it with the windows placed accordingly. Each plank is place and hammered with a rubber mallet. The roof is fitted with 90 mm wood, topped with silver insulator reflectors to maintain a cooler temperature and finally covered with Onduline roofing sheets and ridges and Voila ! the cottage is complete.

The teams completed the structure in a couple of hours and had a lot of fun in the process. The whole DIY activity was a learning experience. They learnt how the wooden structures were built. They understood the hard work and energy involved and also learned the harmonisation and synchronization required to set up a structure. It was a wonderful team building exercise.

MULTI-PURPOSE WOODEN STRUCTURES

Experience New Dimensions Of Living

Goa has an amazing picturesque landscape with acres of beach front property and river banks that you cannot build permanent structures on. Wooden Homes India comes to the rescue with beautiful, practical and strong cottage structures that can be setup, used for a season, dismantled and used again the next. We also consult for pollution board approved waste water management solutions to ensure your project is environmentally friendly. This is also suitable for forest areas and farm houses. We have over a dozen completed projects in Goa.

Water Restoration Services

Fishing and fish farming is one of the important trades in Goa. Having the right kind of support is essential for the fishermen especially when it comes to creating a healthy environment for the fish to breed and also ease of access for the fishing vessels to go out into the sea.

Kafmar is the only company in Goa which provides an amphibious vehicle which can be used to clean up waterways, deepen trenches and canals and provide mechanical help with traditional tools like JCB fail. The company has been involved in this business and has already completed several projects across the state. Kafmar also provides an opportunity for industries looking for practical ways to fulfil their CSR. You can now adopt a water body and contribute towards a positive climate change.

Highly Detailed Helicopters and Airplanes Youngsters will be simply thrilled to own the Hot Wheels Skybuster assortment as they'll see their wish of collecting aircrafts coming to fruition. This assortment of aircrafts includes helicopter and airplanes that are intricately designed with complete detailing and are complete replicas of the originals. All the aircrafts in this set are made of die-cast material, making them very sturdy and durable. Moreover, the aircrafts in this Hot Wheels Skybuster assortment for kids have an ergonomic design that allows kids to easily grasp them by hand.

Transform Your Ride Before Your Eyes Now you can transform the color of your Hot Wheels cars with Color Shifters vehicles! Its fun to dunk and simple, too: warm or icy water changes the cars color. Some vehicles even feature a multi-color transformation! A wide variety of available decos and shades offer something cool for every car fan. Splash or dunk your Color Shifters vehicle in water and watch your ride transform before your very eyes! Its like having two cars in one.

Drive to Survive! Boys love action sets full of dangerous challenges, adventure and excitement. They will have a blast navigating this themed water and speed play set trying to free their car from the jaws of the metal-munching shark. When they do, they save the day!
